Pursuant to a congressional request, GAO reviewed the Department of Defenses (DOD) efforts in implementing the Corporate Information Management Initiative (CIM), focusing on the progress made toward improving DOD business processes and information systems. GAO found that: (1) the results of DOD efforts to change its business processes, standardize and integrate data, and improve its information systems under CIM have been mixed; (2) although DOD has successfully implemented CIM in certain functional areas, improvements in other areas have been marginal; (3) DOD cannot accurately determine CIM implementation costs because implementation efforts are not centrally funded or tracked; (4) DOD needs to base its CIM investments on reliable cost information, develop a comprehensive strategic plan that provides clear goals, objectives, and responsibilities, and focus its implementation efforts on reengineering business procedures and information systems so that CIM investments are cost-effective, successful, and increase productivity; (5) DOD management has not given CIM sufficient priority for it to garner departmentwide support; and (6) without support from all management levels, DOD cannot adequately allocate the resources necessary to support top level managers decisions or sucessfully implement CIM. This item ships from La Vergne, TN. Paperback.
