# THE GOD OF SCIENCE: THE BIBLE WAS SCIENCE BEFORE THE WORLD COINED THE WORD SCIENCE

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.God is infinite energy plus the sum total of all the energies in the universe, visible and invisible; thermal, nuclear, sonic, light, magnetic, electrical, chemical, potential, hydrostatic, and all of the other forms of energy known and unknown; enthalpies and entropies. Every discrete particle; every living cell; every microorganism or virus; every discrete body tissue or body organ; every structure; every motion; every human emotion; every discrete object or system of objects; every celestial body or orbital system; every human establishment or human society-if it is real to man or exists in man s intellect-has a designated spirit in charge of it. And because the Spirit of God fills the earth, the universe and beyond completely (Ephesians 4:6-10); to God, moving anything from one point on the earth and the universe to another point on the earth and the universe, is like moving something from your left hand to your right hand. That is why everything God does within the earth and the universe takes only an instant. Moving from the natural realm into the supernatural realms also takes an instant for the same reason. All...
